VIJAY LOGESH K

JAVA DEVELOPER |
HTTPS://GITHUB.COM/VIJAY2182/WICKER

OBJECTIVE

A energetic developer looking for more challenging job with more responsibilities where can I bring out my best.

SKILLS

Languages – Java, Python, JavaScript and GoLang(Beginner)

Frameworks and Technologies – ReactJs, Spring MVC & Boot, RestAPI, etc.

EXPERIENCE

PROGRAMME ANALYST • COGNIZANT TECHNOLOGY SOLUTIONS • DEC 2020 – PRESENT
Working as a java developer in application development and maintenance project for almost 9 months and really got appreciated by project manager within a short period of time for my contributions and now acting as one of the reliable resources in the project. Having a good relationship with client side too.

EDUCATION

**BE • 2020 • VEL TECH HIGH TECH ENGINEERING COLLEGE**
Completed my Bachelor's in Mechanical Engineering with CGPA of 7.6

12TH • 2016 • ST. JOSEPH'S HR.SEC SCHOOL
Completed my higher secondary with 89% percentage

PROJECTS

1. A fully functional courier system – Contributed to our mandatory training project by completing package registration and updation of package records along with the bill generation for the order. Also helped my teammates to complete their modules.
2. A MERN Social Media Project – Working on one my personal project with ReactJs which is in almost

completion stage. Soon will be pushed to my repository.

3. Done small projects in ReactJS which can be find in my github.
